

# **Smoking Policy**

## **Purpose**

This policy is intended to protect all RMSS LTD employees, service users, customers and visitors from second-hand tobacco smoke exposure and to comply with the Smoke-free Premises Regulations 2007.

Exposure to second-hand smoke, also known as passive smoking, increases the risk of lung cancer, heart disease and other illnesses. Ventilation or separating smokers and non-smokers within the same air space does not completely stop potentially dangerous exposure.

### **Policy**

Smoking is prohibited throughout the entire workplace with no exceptions. This includes company vehicles. This policy applies to all employees, consultants, sub-contractors, customers or members and visitors.

#### **Implementation**

Overall responsibility for policy implementation and review rests with company director. All staff are obliged to adhere to, and facilitate the implementation of the policy.

The company director shall inform all existing employees, consultants and contractors of the policy and their role in the implementation and monitoring of the policy. They'll also have to give all new personnel a copy of the policy on recruitment/induction.

Appropriate 'No smoking' signs will be clearly displayed at the entrances to and within the premises.

#### Non-compliance

Local disciplinary procedures should be followed if a member of staff does not comply with this policy. The procedures set out on page 12 of the booklet 'Helping to get your business or organization ready for the new law on smoking' should be followed if a customer, visitor or passenger does not comply. Those who do not comply with the smoking law are also liable to a fixed penalty fin and possible criminal prosecution.
